Jerusalem Thinstones

New England Thinstones announces the introduction of our new and exclusive collection of Jerusalem Stone Veneers. We are proud to have been selected by A. Grebelsky & Son to be their importer and distributor of the only Jerusalem Thinstone veneer available in the United States. A. Grebelsky & Son, founded in 1923 is the oldest Jerusalem stone quarry, producing some of the most sought after stone and marble in the world.

Their portfolio includes the Metropolitan Museum of Art and the Bank of America headquarters in New York. The Trump Hotel & Towers in Chicago, HBO headquarters in Santa Monica California and the Mass Maritime Academy in Massachusetts.

Jerusalem Stone is famous for its understated style and elegance, and its origins evoke a symbolism that resonates with culture and history.

Until now Jerusalem Stone has been considered exclusive and cost prohibitive, to be specified only when compromise in aesthetics is not an option. However, by

dimension stone to take advantage of the significant savings in time, material, freight and labor expenditures.

By keeping a large Jerusalem Stone inventory in our Connecticut facility, turn around and delivery times are kept to a minimum anywhere in the U.S.

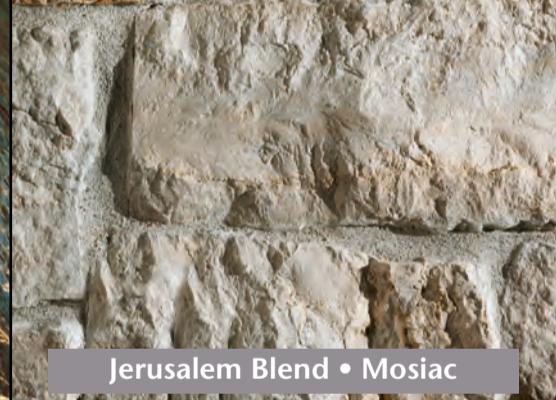

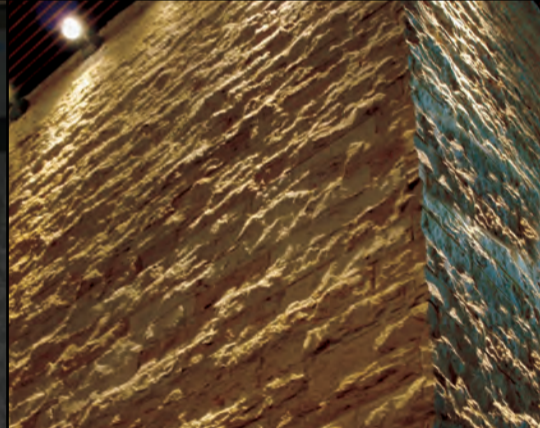

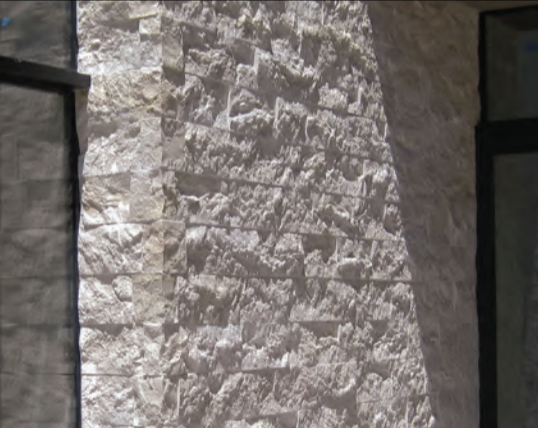

All colors and blends shown are available in all cuts. We also supply Jerusalem Stone finished in forms other than thinstone.

Jerusalem Stone is 100% natural stone. Shade and color variations are to be expected.

making it available in natural thin veneer form, New England Thinstones will bring Jerusalem Stone, one of the more favored elements of high end architects and builders, within reach of many more projects.

This unique stone lends itself to many interior and exterior environments, both residential and commercial.

Increasing numbers of architects, builders and homeowners across the country have been specifying New England Thinstones' traditional New England stone veneers instead of full
